Re: Notification of Late Evening Aerosol (ULV) Applications

Please be advised that the Norfolk County Mosquito Control District will begin the **2015** late evening ULV aerosol applications on ***or about May26,*** weather permitting.

May 26 through September 30, 2015 - Adulticide aerosol (ULV) applications.
(conducted between sunset through midnight, Monday through Thursday)

If any resident wishes to know when the spray program ***may be*** conducted in their area, they should go to the Districts website at http://www.norfolkcountymosquito.org/. If an individual would like to see a map and/or street listing of the areas to be treated, they should click on the following link, and then enter their address

Current late evening aerosol application schedule and maps
http://www.norfolkcountymosquito.org/ServiceRequest.html

Please note that the ULV map and/or street listings will be posted on or about 3:30 p.m. the day of the scheduled application. **Residents may also contact the following number 617-582-6216 after 3:30 P.M. the day of the scheduled treatment to receive information detailing the streets/areas to be treated in the town.**

The purpose of the adulticide application is to control nuisance and/or virus carrying adult mosquitoes. The control product being used is DUET (EPA Reg.# 1021-1795-8329) applied in ultra-low volume (ULV) sprayers at a rate of approximately one half ounce per acre of finished spray.

Process to Exclude Property From Public Area Wide Pesticide Applications - State Regulation 333 CMR:13:03 provides a method for homeowners to exclude their property from public area-wide pesticide applications. For more information, please click on the following links:
