

In An Emergency, Take Your Pets!

You may not be allowed to return to rescue them.

THINK AHEAD. HAVE A PLAN IN PLACE:

MAKE AN EMERGENCY KIT (see reverse)

- One kit per pet
- Keep near an exit for easy Grab-and-Go

Take Photos of Your Pet With You and/or Your Family

- Photos can prove ownership and reunite you with your pet
- Keep copies in wallet, disaster kit, and stored on phones
- Give copies to loved ones who live outside your area

Microchip Your Pet

- Most effective way to reunite pets with families
- Update microchip registration when you move, change phone numbers, or get a new emergency contact

Start a Buddy System

- Exchange keys and disaster plans with a someone who can evacuate your pets if you are not home during a disaster
- Keep your buddy current regarding your pet's information and your emergency contact info

Identify Evacuation Locations

- Identify shelters that will accommodate pets; consider pet-friendly hotels and family
- Store phone numbers and addresses in your disaster kit and on your phone
- PRACTICE loading and unloading pets into the carriers and your vehicle.

When You Go - THEY Go!

Be prepared to protect your pets in an emergency.

Do not put your pets' lives, your life, or other rescuers' lives at risk
