MEETING STARTED – 7:35PM

School Related Road Safety Survey Sheets – The survey sheets as prepared to date were reviewed. Beth will update the sheets as discussed for any last minute Friday morning comments. Any final comment committee members have will be incorporated by Joe before printing copies to be used on Saturday 11/16.

Existing and proposed Stop Sign list still being reviewed by Highway – Many of the recommended new stop signs on the list expected to stay on the official request to be made to the Board of Selectmen

Existing NSTAR street light order delays – Butch has made the calls...hope to hear back soon...completing the earlier order is a priority...especially for the streetlight needed at the front entrance way on Main Street to the HO Day School.

New existing/proposed streetlight survey plans (and any proposed new locations we have to date) – Joe will get together with Bill to complete the list of 10+ new requests for our meeting in December...and to work on the larger existing lamp survey (w/GPS recording) as soon as we can get back out there this winter.
