

**Norfolk Road Safety Committee  
1 Liberty Lane  
Norfolk, Massachusetts 02056**

Minutes from **November 10th 2004** RSC Meeting - Joe Sebastiano, Butch Vito

- Discussed with Butch the Rockwood Rd. & Boardman St. intersection, and some other intersections getting new curbs along Rte 115 (which many on the committee, Police and BOS express support for and cite traffic/pedestrian safety to be gained; yet a number of complaints have come in to Butch and the BOS).
- The article establishing a new Stabilization Fund for sidewalks was approved at Town Meeting...much needs to be done in prep for Spring Town Meeting and any requests made at that time to acquire/deposit into the new fund more capital beyond the developer funds raised by forgoing a second sidewalk in new development/sub-divisions.
- Joe or Butch will likely be involved with the local cable airing of info regarding roundabouts for Norfolk. Joe expecting to hear from Paul (at Norfolk Cable soon).
