

**Norfolk Road Safety Committee
1 Liberty Lane
Norfolk, Massachusetts 02056**

Minutes from the 1/7/04 Road Safety Committee Meeting:
Held 7:30PM to 9PM in Town Hall, Room 25

In Attendance:

RSC - Joe Sebastiano, Jim Leonard.

Jim and Joe reviewed the latest draft of the "CPA Funding Application" that Jim has been diligently preparing; which is the next CPA document to be submitted in support of the proposed Road Safety CPA project for improved access and pedestrian safety for the Pond Street Recreational and Lind properties.

Jim updated the draft in time for our 1/13 and 1/14 respective appearances before the CPA Committee and Conservation Commission the following week. Mary Ann Magner and Cynthia Andrade (both very much involved in the acquisition/management of the Lind Property) have expressed their support for our CPA application and will provide letters and/or appearance for the week of 1/13 and 1/14.

We also have date/time in front of the Capital Outlay Committee this coming 1/29/04 at 7PM. [Selectmen Advani has also expressed interest in an RSC appearance before the Board of Selectmen as soon as possible, for RSC updates and direction for 2004, possibly a Monday in February.]

There are two (2) lists that the RSC is in the process of completing: (1) our uncompleted street lights and (2) the proposed street lights. With a little field verification and acquiring the proposed pole numbers for the new list, we can help Butch push NSTAR to complete the few that are outstanding and officially submit a new and more accurate list through the BOS.

The next RSC meeting is February 11 at 7:30PM (we now plan to meet the second Wednesday of each month going forward).
