

**Norfolk Road Safety Committee
1 Liberty Lane
Norfolk, Massachusetts 02056**

Minutes from February 9th 2005 RSC Meeting – In Attendance: Joe Sebastiano, Chief Stone, Jack McFeeley, Butch Vito

- 1) C&C will be engaged to update/package the sidewalk/pedestrian walkway presentation with improved mapping needed for upcoming presentations: on local cable TV, for BOS, any informational forums/override proposals, and for a likely Spring Town Meeting Presentation; which Jack does want us to be ready for. Butch will reach out to Bill for any day to day help. [No savings having local Norfolk IT support help at this time, as a mapping data base for this lies with C&C...that will change in the future.]
- 2) Jack will be our direct BOS support for guidance through the override/stabilization fund process for now and will attend upcoming RSC meetings.
- 3) Butch's CPA application is with the CPC (requesting funds to supplement additional new sidewalks for town hill); with no CPC determination at this time..., but Butch sensed some positive support prior to their decision.
- 4) Annual Police report of accidents, safety related incidents, etc. is coming our way via Chief...some new updates to past format...hope to have a copy/soft copy soon.
- 5) Joe's Annual report for the RSC is ready and needs to be into Marian by 2/11/05.
